Made Differently

Responsible game changers. Quality seekers. Stanley/Stella is a community of passionate individuals, driven by a common desire to reinvent fashion for a better world. Since our conception in 2012, we have made it our mission to produce impeccable garments, while building a transparent and sustainable fashion ecosystem.

Our thoughtful approach is reflected in the premium quality of our garments. We believe in the power of simplicity and aim to create refined pieces that we are proud to sell and wear. Each item in our collection allows the wearer to express their style, while never compromising their values and beliefs.

We also believe that there is strength in numbers, which is why we work exclusively with those who share our values. Together with our suppliers, partners, employees and customers, we form a community of like-minded individuals, driven by desire for innovation and change. Together, we are making this change happen, one ethically crafted garment at a time.

Innovation

Stanley/Stella is driven by innovation and our entrepreneurial spirit. We believe choosing the right partners empowers innovation. We are always experimenting to improve our products, our digital services, and our entire supply chain.

Excellence

For you, as for us, every detail counts. We make no compromise when it comes to reaching for excellence. In every aspect of our business, we aim to surpass our own results. Our collections and actions should always raise the standards and change the perception of the textile industry.

People

Everything at Stanley/Stella is about people. It is our essence. From our suppliers and dealers to our employees and customers, we ensure everyone feels listened to and is treated with respect and dignity. We actively strive to create an ecosystem that feels positive and empowered.

Sustainability

Sustainability is at the core of our business culture. We are committed to continuously improving how we create and operate, from the cotton field to the collection, to how we manage our waste. We always act with transparency for people, our planet, and for society.

Advocating for positive change

The textile and garment industry is among the least sustainable industries worldwide. Placing focus on sustainability is no longer an option, it's a must. At Stanley/Stella, sustainability has been part of our core values since day one, and is fully integrated in our business culture. We believe that a fairer and more sustainable fashion industry is possible and that it's our shared responsibility to continuously improve how we create and operate.

From the cotton field to our collection, to how we manage our waste, our objective is always to act with transparency for people, the planet, and society. We have dedicated sustainability teams both in our Brussels headquarters and close to our suppliers in Asia, and our commitments are embodied in the Stanley/Stella Charter, which we launched in 2022. These commitments are further reinforced through actions across our supply chain and are supported by various certifications and memberships.

Read our Sustainability Report and join us on our journey. Together we can go further!

Choosing our materials consciously

Fibre selection defines both a product's quality and its environmental footprint. Since day one, we have been committed to responsible and sustainable sourcing of our raw materials: GOTS certified organic cotton, GRS certified recycled polyester, GRS certified recycled nylon, and GRS certified recycled cotton.*

Organic cotton

We exclusively use GOTS certified organic cotton. This cotton is grown from seeds that have not been genetically modified (non-GMO) and is cultivated without the use of chemical pesticides and fertilisers.

93% of our range

Recycled polyester

Since 2018, we have been using only recycled polyester made from post-consumer PET bottles. It takes between 38 to 80 plastic bottles of 550ml to produce our jackets, depending on the style.

7% of our range

Recycled cotton

Our accessories and Recycled Range are paving the way for more circular production at Stanley/Stella. These products are made from a blend of recycled organic cotton taken from cutting waste, and undyed virgin organic cotton or recycled polyester.

< 1% of our range

*All of our products are also OEKO-TEX® certified, confirming that they are free of harmful chemical substances. workers and those close to our HQ.

Reducing our carbon footprint

Did you know that the carbon footprint of our iconic t-shirts is about three times lower than the carbon footprint of a conventional cotton t-shirt?**

In 2023, we are setting up a decarbonisation strategy to go even further, using our 2022 carbon footprint as a baseline.

Caring about people

Fair and safe working conditions, as well as giving back to local communities, are at the heart of our operations and organisation.

Fair Wear Leader status

Showing best practices in complex areas such as good working conditions and freedom of association.

11 partner factories sharing our values and vision

Our local teams visit our partner factories every day, reinforcing our strong, collaborative relationships.

Giving back to local communities

We drive impactful projects for the communities of cotton farmers, factory workers and those close to our HQ.

**Estimation based on internal data and external sources (The Conversation, 2022; One Less, 2021; ADEME, 2018)

AW/23 Collection

Live differently

Learning from the past, living in the present, shaping the future. AW23 celebrates the power of everyday choices in creating a kinder, more equitable and more sustainable world.

With an exciting new softshell range, extensions to our Dry Range, and our upgraded Drummer 2.0 hoodie, it's a collection that encourages us to look beyond the status quo and seek new perspectives, new opportunities, and new solutions.

#stanleystella

Why Rotterdam?

When it comes to living differently, Rotterdam is ahead of the game. Once a gritty port city with declining industry, Rotterdam is redefining its future with bold, playful, and innovative solutions to some of today's biggest challenges. From circular economy initiatives and minimal housing, to climate-proofing and smart businesses built around water, this is a city that loves to play with new ideas to secure a better future for our planet and its people.

Choose consciously

From what we buy and what we eat, to how we dispose of our waste and how we travel, our choices tell the story of the future we want to be part of. Choosing Stanley/Stella means contributing to a kinder, more equitable, and more sustainable fashion industry, and a better world.

Designed for decoration

From the initial sketches to the final sewing, every Stanley/Stella garment is crafted with decoration in mind. Our thoughtful design, careful choice of raw materials and dyes, and superior garment finishing ensure we can offer the best blank apparel on the market. Plus, our dedicated team is always on hand to help you achieve outstanding results, every time.

Less is more. Fine cotton flower embroidery to embellish your favourite garment.

Help protect the planet with eco-friendly ink. This Cooper Dry hoodie in Aloe is screen printed using high mesh count screens with Cradle to Cradle ink.

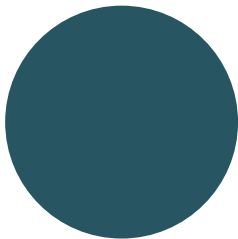

Direct to Film (DTF) printing lets you get as creative as you want to be, like on these Cooper Dry hoodies.

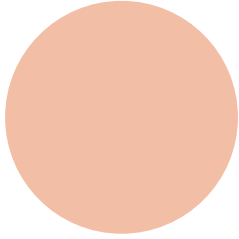

Sustainable water-based screen transfer delivers excellent decoration results when printing your favourite slogans.

Dry Range

Level up your style with the Dry Range line extension, featuring the highly anticipated addition of more best-selling colours on the Freestyler and the all-new jogger pants.

Live differently Outerwear

Play with new ideas

In an age of acceptance, we're free to be who we want to be, wherever we are. Versatile, multifunctional garments in one of the broadest colour palettes on the market bring the ultimate freedom of expression.

Softshell

Experience premium quality: Fabric and performance

Being outdoors makes us feel more alive. It reminds us of both the strength and fragility of nature. By observing more closely, we appreciate and respect more deeply. With the right layers and outerwear we adapt ourselves to the weather, rather than adapt our plans.

Introducing our new Discoverer and Navigator softshell jackets. Modern and gender fitted, maximum comfort, sustainable and made to be decorated.

Designed to decorated

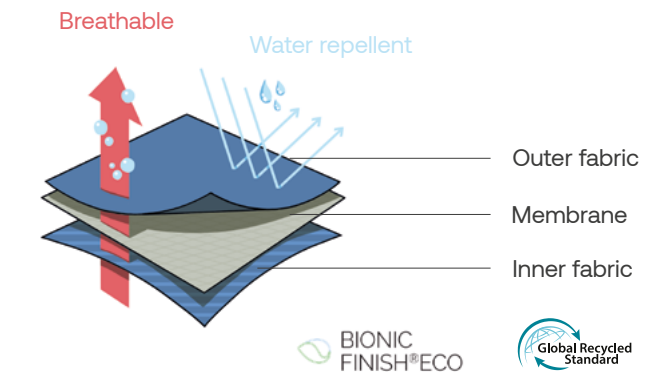

Their minimalist design provides the perfect canvas for impactful decoration, including techniques like heat press, screen print, embroidery, and stitched patches. Our softshells have successfully passed a dye migration test.

Fit

Their modern and gender fitted design ensures freedom of movement, whether you are biking, walking or running.

Fabric

Made from three layers of GRS certified recycled polyester, their stretchy, water-repellent fabric ensures weatherproof comfort and breathability. Fabric waterproof up to 10,000 mm and breathability up to 3,000 g/m².

Reimagine spaces

As lines blur between our homes, recreational spaces, and our working environment, we reimagine those spaces to meet our evolving needs. AW23 brings exciting styles that integrate seamlessly in new ways of working, connecting, and being.

Act collectively

By listening to each other, understanding different perspectives, and working together, we can bring about more positive change than we can achieve alone. When we feel part of a community, anything is possible.
